S 08-A

4 CHANNELS AUDIO SYSTEM

Description

S 08-A is a self-powered audio system providing all those features required for a complete environment sonorization. It features a four channel class D amplifier able to power the integrated 8'' woofer, 2 satellites lines for both mono and stereo applications, and an additional passive S 08 subwoofer. Line and mic inputs can be mixed in an optimized way balancing each single level. Bluetooth connectivity allows audio streaming from any mobile device, and comes alongside traditional RCA, combo XLR and 3.5mm jack connectors. S 08-A offers 8 different equalizations, optimized for music and voice reproduction. Specific HI-PASS filter values allow to combine the system with a wide range of RCF speaker models, ensuring high application flexibility.
